Letter of Intent for Partnership in Water Bodies and Watershed Restoration Projects

Between: BlueGreen Water Technologies Ltd., and Winrock International

The purpose of this LOI is to establish a preliminary understanding between BlueGreen and Winrock to collaborate on water bodies and watershed restoration projects. This collaboration aims to leverage the parties' respective expertise and resources to implement impactful water remediation projects, raise public awareness, and engage key stakeholders.

1. Scope of Collaboration

The parties intend to collaborate in the following areas:

a. Strategic Collaboration

- I. Jointly identify and prioritize water bodies and surrounding ecosystems requiring remediation in different geographies of interest, engaging large corporate sponsors, notably Google LLC.
- II. Exchange technical and scientific knowledge to enhance intervention strategies and ensure long-term water quality improvements.

b. Stakeholder Engagement & Public Awareness

- I. Facilitate engagement with local government representatives, regulatory bodies, and private sector entities to obtain funding for remediation efforts.
- II. Winrock will manage community engagement leveraging its existing in-country relationships. collaborate to amplify awareness of water pollution issues and our joint efforts through media campaigns, community events, and educational initiatives.

c. Resource Mobilization & Funding Facilitation

- I. Collaborate on submitting joint sponsorship requests for water-related ecosystem restoration projects. Sponsorships for our joint initiatives would primarily come from corporate CSR/ESG budgets or through their Water Stewardship programs (under VWBA, WQBA methodologies), beginning with Google LLC.
- II. Collaborate on the development of carbon credit and other financing models to further support long-term water restoration efforts and improve water quality needs.

2. Mutual Commitments

Both organizations commit to:

- I. Regular communication and strategic alignment to maximize impact.
- II. Sharing relevant data and insights to enhance project outcomes.

3. Non-Binding Agreement

This Agreement is non-binding and serves as a statement of mutual intentions. It does not create any legal obligations or liabilities for either party. Any binding commitments will be set forth in a subsequent definitive agreement.

Next Steps

We propose to formalize this collaboration through a more detailed implementation agreement outlining specific roles, responsibilities, and project timelines. The next step would be to form a specific project proposal around potential lakes in Pokhara region , Nepal.
