Subject: A Letter of Endorsement for BlueGreen Water Technologies' Nomination for the Prix Galien EcoHealth Award

To: Esteemed Members of the Prix Galien EcoHealth Award Committee

From: SEAKURA IL

Dear Committee Members,

On behalf of SEAKURA, a company specializing in land-based seaweed cultivation technology, I am writing to express our enthusiastic endorsement and strong support for BlueGreen Water Technologies. We believe their groundbreaking work in addressing the global challenge of harmful algal blooms (HABs) makes them an exemplary candidate for the Prix Galien EcoHealth Award. Their solution perfectly embodies the award's commitment to ecological health and impactful innovation.

Our organization has had the opportunity to collaborate with and support BlueGreen Water Technologies, and we have been deeply impressed by their approach to water restoration. We have personally witnessed the substantial improvement in water quality and HAB remediation in numerous reservoirs and lakes where their Lake Guard® product was deployed. In these instances, Lake Guard® demonstrated the complete elimination of cyanobacteria without any harmful effects on aquatic life. Furthermore, its positive contribution to public health has been repeatedly proven in every operation where it was used.

What truly distinguishes BlueGreen Water Technologies is their holistic approach. Their solutions extend beyond addressing the immediate threat of HABs to contribute to long-term ecosystem resilience and biodiversity restoration. We are particularly impressed by their proactive, AI-powered BGi analytics. This integrated approach also adds a powerful tool to the global effort to combat climate change through carbon sequestration and methane reduction.

We are confident that BlueGreen Water Technologies' continued efforts will have an even greater positive influence on global water security and environmental health. Their dedication to pioneering effective, scalable, and sustainable solutions aligns perfectly with the spirit of the EcoHealth award.

For these reasons, we wholeheartedly recommend BlueGreen Water Technologies for the Prix Galien EcoHealth Award.

Sincerely,

Dr. Yossi Tal

CTO
