

12th August 2025

To: Esteemed Members of the Prix Galien EcoHealth Award Committee

Subject: Letter of Endorsement for BlueGreen Water Technologies

Dear Committee Members,

On behalf of the Social Carbon Foundation, I am writing to express our strong endorsement and support for BlueGreen Water Technologies and their innovative work in addressing the global challenge of harmful algal blooms (HABs). Their solution exemplifies the commitment to ecological health, community resilience, and impactful innovation that the EcoHealth Award seeks to recognize.

The Social Carbon Foundation has observed with great interest BlueGreen's pioneering approach to large-scale water restoration. In particular, we have seen the transformative results of their *Lake Guard*® technology on Mantua Reservoir, Utah, which has achieved rapid and effective remediation of HABs while safeguarding aquatic ecosystems.

What distinguishes BlueGreen is their combination of scientific rigor, environmental stewardship, and climate impact alignment. Their technologies not only mitigate the immediate dangers posed by HABs but also contribute to long-term ecosystem resilience, the restoration of biodiversity, and critical climate objectives through reductions in methane emissions and enhanced carbon sequestration. Their commitment to engaging local communities, partnering with scientific institutions, and ensuring sustainable outcomes underscores their global leadership in eco-innovation.

By restoring vital freshwater sources, BlueGreen helps safeguard drinking water security, support local industries such as fishing and tourism, and mitigate severe public health risks. These outcomes directly align with the mission of the Social Carbon Foundation to promote ecosystem restoration and conservation that is grounded in sustainable livelihoods.

We wholeheartedly recommend BlueGreen Water Technologies for the Prix Galien EcoHealth Award. Their dedication to delivering effective, scalable, and sustainable solutions makes them an exemplary candidate for this prestigious recognition.

Thank you for considering this endorsement.

Sincerely,

Michael Davies

CEO

Social Carbon Foundation
