

**To: Esteemed Members of the Prix Galien EcoHealth Award Committee**  
**Subject: Letter of Endorsement for BlueGreen Water Technologies**

Dear Esteemed Members of the Committee,

On behalf of Daytec, I am writing to express my strong endorsement and support for BlueGreen Water Technologies and its innovative work addressing the global challenge of harmful algal blooms (HABs). I believe its solutions exemplify the commitment to ecological health and impactful innovation that the Prix Galien EcoHealth Award seeks to recognize.

Our organization, in collaboration with BlueGreen Water Technologies, regularly observes its technology in action and has extensively reviewed its approach to waterbody restoration. Specifically, we have witnessed the successful restoration of several water-supply reservoirs contaminated by cyanobacterial blooms using its Lake Guard® technology. This has resulted in significant improvements in water quality, the rapid remediation of HABs, and effective preventive treatments to avoid recurrences.

What distinguishes BlueGreen Water Technologies is its scientifically robust, user-friendly, and eco-friendly Lake Guard® technology. This holistic strategy not only addresses the immediate threat of HABs but also contributes to long-term ecosystem resilience, biodiversity restoration, and climate goals by reducing greenhouse gas emissions. Its commitment to scientific rigor, community engagement, and sustainable practices further underscores its positive impact.

The company's ability to restore freshwater sources for drinking, support local industries, and mitigate severe public-health risks has been instrumental in promoting environmental balance and safeguarding vulnerable water resources. We are confident that its continued efforts will have an even greater positive influence on global water security and environmental health.

We strongly recommend BlueGreen Water Technologies for the Prix Galien EcoHealth Award. The company's dedication to pioneering effective, scalable, and sustainable solutions makes it an exemplary candidate for this prestigious recognition.

Thank you for considering this endorsement.

Sincerely,

Caio P. Rodrigues  
Head of Operations
