Practice Greenhealth is pleased to announce that **Stanford Health Care** has been named one of the **Top 25 hospitals** in the country for its incredible work in pursuing environmental excellence. Based on a rigorous scoring system, this award honors success and performance in a range of sustainability programs including leadership, waste, chemicals, greening the operating room, food, sustainable procurement, energy, water, climate, transportation, and green building. As Practice Greenhealth's highest honor for the Partner for Change application, this award recognizes the best of the best in health care environmental sustainability.

We recognize the impactful sustainability work you pursued over the last year, but also know that the world looks very different today. We understand if you would prefer to limit attention to your organization's environmental work at this time, and opt out of Practice Greenhealth posting your name on our website.
