

PRODUCT: **Patientory**

COMPANY: Patientory Inc.

---

#### ABOUT THE PRODUCT

Patientory democratizes individual ownership of the world's health data and incentives to improve health outcomes. Patientory Inc. is a population health data management and analytics company. Through its two decentralized applications, the Patientory mobile app and enterprise software tool Neith, Patientory Inc. provides patients with ownership and insights and enterprises with comprehensive healthcare data intelligence. This is achieved by integrating a blockchain enabled network to gather and analyze siloed healthcare data, which includes daily lifestyle factors, and in turn, reduce the cost of care.
