---

#### ABOUT THE PRODUCT

AcrySof® IQ PanOptix® Trifocal Intraocular Lens (IOL) is the first and only trifocal lens for U.S. patients undergoing cataract surgery. Approved by the FDA in August 2019 and developed by Alcon, the global leader in eye care, PanOptix has a proprietary design – ENLIGHTEN Optical Technology (stands for “ENhanced LIGHT Energy”) – which offers three optimally placed focal points to see at distance, intermediate and near vision after cataract surgery.
